It is time for Vijnan Manthan 2.0!

Vichar Vatika is happy to announce the second edition of Vijnan Manthan - an online course for high school students who are passionate about Science.

  Learn to look at Science without compartments, build bridges across seemingly unrelated fields, build inquiry and deeper thinking skills required for science and beyond. Be part of a peer group who are highly motivated and curious about Sciences.

Imagine engaging in hands-on and minds-on projects like the following ones ideated and performed by Vijnan Manthan 1.0 students:

- Making a borax snowflake
- Electrolysis of aqueous NaCl
- Comparison of the bacterial load on sanitised and unsanitised hands
- Measuring the resistance of pencil lead
- Making a non-Newtonian fluid

How to apply?

 Step 1: Visit www.vicharvatika.org for details

 Step 2: Apply by filling up the details and taking the qualifying test

 Step 3: Wait for the results. You will hear from us on further details.

 Application deadline: July 10th, 2024 or when seats fill in (whichever is earlier)

Selection: On a rolling basis (earlier applications have a higher chance of getting selected)

Grades: Grade 8th to 10th.

For any queries, write to us on contact@vicharvatika.org
